SUMMARY

Highly motivated Full-Stack **MERN** Developer with **1 year** of professional experience and **2 years** of non-professional experience. Passionate about creating seamless web applications and solutions. Proficient in both **front-end** and **back-end** development, and dedicated to delivering high-quality code. Eager to contribute innovative ideas and collaborate within dynamic teams

EDUCATION

Daffodil International University

Bachelor's Degree in Software Engineering
2020 – running

Residential Laboratory College

Science Division
2018– 2020

SKILLS

- Strong Expertise In MERN technologies, like mongoDB, express, react and node
- Comfortable with redux, tailwindcss, bootstrap, MUI and PostgreSQL
- Strong organizational and time-management skills
- Ability to work independently and as part of a team
- Detail-oriented and able to handle multiple tasks simultaneously

LANGUAGES

- Bangla (Native)
- English (Advanced)
- Hindi (Primary)

INTERESTS

- Learning new technologies
- Problem solving
- Knowledge Sharing
- Watching Movies
- Reading technological blogs

PROFESSIONAL EXPERIENCE

Lead Software Engineering

Stylon | 2022- running

Role:
- Lead a team of developers in the design, development, and deployment of complex web applications, ensuring alignment with project goals and objectives
- Collaborated closely with product managers and stakeholders to define project requirements and translate them into technical solutions.

Challenges:
- **Scaling and Performance Optimization**: Addressed the challenges of scaling applications to handle increased user loads while maintaining optimal performances of a complex ask.
- **Project Scope Changes**: Adapted to changing project requirements and scope adjustments while still meeting deadlines and maintaining quality.

PORTFOLIO

- **Café Vista:** Live | Code

  About: Crafted an innovative coffee shop website encompassing role-specific user interfaces for seamless order management, product sales, and engaging blog experiences.

  Technologies: node, express, mongoDB, ejs & scss

- **MediAid:** Live | Code

  About: Engineered a medicine donation platform fostering unused medicine contributions and equitable access to healthcare resources, accompanied by health tips and a competitive leaderboard.

  Technologies: node, express, mongoDB, react, Mui, vite, redux, rtk query
